IDEP MEDIA

media design development and capacity building

We can make it

IDEP is well recognized as one of the top media and advocacy organizations in Indonesia. We develop high impact media and curricula for non-formal education and empowerment at the community level.

IDEP's media is accessible, community-oriented, print and audiovisual materials that are used by international, local and government organizations across Indonesia and worldwide.

We can help you make it

Private or group media training....

IDEP media trainings are dynamic learning opportunities where participants build skills and confidence through discussion groups, hands-on practice and teamwork activities.

IDEP Media training is available for:

- Media & Advocacy
- Filmmaking
- Print & Digital Media Design
- Community Media Facilitation

Contact IDEP for more information and upcoming training events.....

IDEP's media self-help resources

Make Media that Works

A self-help print and community media design handbook

Let's Make Videos

A practical film making manual

Media making resources DVD

Range of IDEP documentary films, media making resources and public campaign materials

IDEP's media team works directly with clients to design high-impact media and deliver effective capacity building media and advocacy programs.

IDEP's media team have designed and delivered public education tools, media and advocacy programs, capacity building trainings and consultancies in provinces through Indonesia and East Timor.

The IDEP Media Unit provides a complete range of professional media development and production services, and capacity building trainings for:

Film Making

IDEP makes high-impact documentary and educational videos that make important information more easily accessible to program beneficiaries and supporters.

Print Media

IDEP's books, educational comics, posters and dynamic teaching resources for disaster risk reduction and environmental education are used by community development and education programs world wide.

Digital Media

Accessible on-line media, interactive DVD Roms, PowerPoint presentations and other practical teaching and facilitation resources.

Community Media Projects

IDEP brings media design and development activities to communities as a medium for local empowerment and advocacy.
